ASI

ASI election results in runoff

None of the ASI executive candidates won a majority of votes.

BY MICHAELA KWOKA-COLEMAN
Staff Writer

A runoff election starting today is being held to determine the winners for all Associated Students, Inc. executive positions for the 2016-17 academic year.

The ASI Election Board announced the results March 24 in the ASI Senate chamber before a crowd of students and faculty.

However, since none of the candidates for each of the three offices received a majority vote, the executive positions for next year's ASI treasurer, vice president and president will be determined in an online runoff election April 4-6.

Oscar Acevedo originally came in second place in the presidential election, but was disqualified.

Students can vote in the runoff elections by clicking on the link sent to their email registered with CSULB. The results will be announced Thursday in the ASI Senate chamber in the University Student Union.

EXECUTIVE CANDIDATES IN THE RUNOFF (PERCENT RECEIVED IN GENERAL ELECTION)

Treasurer:

Gio Smith (49.5)

Mariam Balogun (29.6)

Vice President:

Logan Vournas (38.5)

Novy Bowman (19.4)

President:

Marvin Flores (33)

Robert Espinoza (15)

JOHNNY ROMERO | DAILY 49ER

eFast and eFurious

Hundreds of fans were lined up outside the main entrance on Ocean Boulevard to get into the Long Beach ePrix Saturday. Many were anxious to see the newest series of electric speedsters. Lucas Di Grassi won the main event, but the event walked away with the biggest win. The Long Beach ePrix set a world record for the most electric cars on one race track. Raffle winners even got the opportunity to go out in a couple of the race cars.

CRIME

Student arrested for having two knives

James Edward Deguzman was arrested after having two knives.

BY MATT SIMON
Staff Writer

University Police arrested a student March 24 after receiving an anonymous report that the student was in possession of two knives, according to a campus safety notification from Chief of Police Fernando Solorzano.

Student James Edward Deguzman, according to the Long Beach Police Department, was said to be seen opening and closing a black knife by a student, making her feel nervous.

The 19-year-old then allegedly pulled out a second knife and had both knives open on his desk in the LA-5 building, according to the crime bulletin.

The reporting party left the classroom to notify University Police. When officers responded, Deguzman was detained for further investigation.

Deguzman was arrested and booked at Long Beach City Jail after exceeding the 2.5 inch blade allowance set forth by California Penal Code 626.10(b).

The university will conduct multiple investigations and determine the steps it will take.

The arrest and subsequent notification came the day after a forum that was organized to address the immediacy of safety notifications after an unrelated knife incident Feb. 25.

"Groups on campus have voiced concerns about safety notifications and the university is refining the process to distribute those notifications," Solorzano said in the notification. "Please be assured that your safety is a top priority."

BASEBALL

Gauchos put Dirtbags on short end of a series

LBSU drops its first series of the season, going 1-2 aginst UCSB.

BY MATT SIMON
Staff Writer

A combination of untimely pitching errors and lack of hitting spelled doom for the Long Beach State baseball team, as UC Santa Barbara took advantage, winning back-to-back games to take the opening series in the Big West from the Dirtbags.

The Dirtbags' (17-10, 1-2) series loss was their first after winning six straight series to start the year.

"I thought [UCSB] completely controlled the tempo," Dirtbags head coach Troy Buckley said. "We got out-tempo[ed], out-executed, out-competed, and out-coached in every facet."

While the Dirtbags got out to a 2-0 lead on Friday night with right-hander Chris Mathewson on the mound, UCSB answered right back, tying the game after a two-run homer from sophomore infielder Austin Bush. The Gauchos then took a 3-2 lead in the fifth after Mathewson gave up a leadoff homer to junior outfielder Andrew Calica.

JOHN FAJARDO | LBSU ATHLETICS

LBSU junior shortstop Garrett Hampson in full stride during the DIrtbags' 2-0 win against Gauchos on Sunday at Blair Field.

LBSU tied it at 3 in the seventh after junior shortstop Garrett Hampson hit an RBI single that scored senior infielder Zack Domingues.

The Gauchos scored the go-ahead run in the eighth inning when sophomore pitcher Lucas Jacobsen threw three wild pitches that allowed junior outfielder Devon Gradford to advance from first all the way home.

LBSU lost to UCSB 4-3 on Friday night.

CFA

Fact finding report last stop before strike

The impartial fact finder sided with the CFA in a last the step before next week's planned strike.

BY GREG DIAZ
Editor-in-Chief

The prospect of a Cal State Long Beach faculty strike is looking more and more likely after the release of the fact finder's report on Thursday, which sided with the California Faculty Association's demand for a 5 percent salary increase.

Both the California State University and the CFA seemed to declare victory in separate statements released after a mandatory 10-day period of silence that ended with the release of the report.

The CSU's statement focused on whether or not the schools could afford more than the 2 percent raise that the CSU budgeted at the beginning of the school year. The CSU statement said that the salary demands of the CFA could only be met by diverting funds from other projects, something the CFA said the fact finder agreed with.

"Freshmen and transfer students have enrolled. New faculty, advisors and academic support staff have been hired. Desperately needed renovation and maintenance projects are already in process," CSU Chancellor Timothy P. White said in the statement. "Any attempt to pull back from these commitments would cause significant harm to students, faculty, staff and California. And as a fiscally responsible public entity, the CSU cannot commit to spend money it does not have."

The CFA countered the assertion that the fact finder agreed with the CSU's logic, arguing that the fact finder "found no legitimate evidence that the CSU could not afford the raises."

"This is not just about faculty pay; it's more than that," said Antonio Gallo, the chair of the CFA bargaining committee. "We teach in 'The People's University'—with the largest number of students of color in the country. We confer more than half of all undergraduate degrees to the state's Latino, African-American and Native-American students. It's about an investment in the classroom."

Fact finding was the last official step in the CFA-CSU negotiation process. Both parties submitted documents and witnesses to the independent fact finder, Bonnie Castrey, who looked over the information provided and made a recommendation to both.

Castrey, a 1972 CSULB alumna, sided with the CFA in her final report, recommending that the CSU provide a 5 percent general salary increase as well as service salary increases to roughly 43 percent of the faculty.

" ... The faculty are still suffering from structural salary issues as well as the lack of substantial general salary increases in percentages in order to address the lack of progress in salary adjustments for all faculty," Castrey said in the report.

Among trends discovered in the report, Castrey found that longer serving employees are more likely to be behind the market in salary than newer employees; additionally, employees at larger campuses are further behind than those at smaller campuses.

Castrey also recommended that money should be reallocated from other projects to cover the cost of a faculty raise, and that both sides should develop a joint strategy to lobby the governor for an increase in the CSU budget.

Both sides will have until April 13 to come to an agreement to avoid the planned strike by CFA members. The CFA has scheduled a strike from April 13-15 and 18-19.

Silence and ICE

Student organizations held a silent protest at a CSULB police job fair.

BY KATHERINE LEMUS
Staff Writer

As students attended a police job fair, a row of protesters stood in silence with signs that spoke for them.

On March 24, Cal State Long Beach held a police job fair in front of the University Student Union building. During the fair, students came and began to take out signs and protest along the sidelines of the fair.

The silent protest held during the fair was a response to the student-led forum March 23 where the Sociology Student Association revealed that an undocumented immigrant had been detained by University Police Officer I. Sanchez for deportation by Immigration and Customs Enforcement Feb. 21.

Student organizations protesting the job fair included SSA, La Raza, the Muslim Student Association, the Future Underrepresented Educated Leaders, Students for Quality Education, Students for Justice in Palestine and the Chicano/a and Latino/a Student Association.

Jessica Howell, a silent protester at the event, said that these issues need to be resolved.

Eduardo Vargas, another protester and ASI associate justice, criticized the university for its handling of both the ICE deportation and the recent knife incident.

On Feb. 25, a 20-year-old student took out a knife in a sociology class on race, class and gender. The student claimed that he was cleaning his fingernails. At the time of the incident, he was a CSULB Community Service Officer. On March 23 at the student-led forum many students expressed their frustration, requesting a timely notification of the event and the expulsion of the student.

"There is definitely a conflict of interest and favoritism when it comes to the expulsion of the student," Vargas said. "I can guarantee you that if I had pulled a knife out in front of someone or a classroom setting I would have been kicked out of school indefinitely."

Vargas explains that more transparency and communication is needed and required if issues like this incident involve the safety of the student body.

"I spend about 16 hours a day on campus; how am I supposed to feel safe on campus knowing this student still has his job as an officer and still attends class? That is just something we do not agree with," Vargas said.

Monica Peralta, a silent protester, spoke about the ICE incident as well.

"This [protest] is a way to continue to support the family but also our beliefs that [police officers] are dehumanizing undocumented people and they're not being given their rights," Peralta said.

Peralta says this protest was formed quickly this morning when the organizers found out about the fair.

"This protest is to continue the topic here on campus and to find some solutions for not just us as family members who have undocumented family members but also the student population who are undocumented as well and to make them feel safe," Peralta said.

COMMUNITY

Long Beach City Hall faces bag protest

Student interest research group gathered to show their support for the plastic bag ban.

BY ERIK ÖHRSTRÖM
Staff Writer

A 30-foot-wide inflatable turtle sat on the lawn outside Long Beach City Hall to protest against overturning the plastic bag ban March 24. Dressed up in green shirts and holding posters, 20 students lined up alongside the giant turtle likeness.

Gov. Jerry Brown signed Senate Bill 270 into law in Sept. 2014, stopping large grocery stores and pharmacies from providing single-use plastic bags in the state. Since 2007, 147 county or local jurisdictions have banned single-use plastic bags, according to Californians Against Waste, and on Nov. 8 the election to uphold or overturn the bill will take place.

The California Public Interest Research Group is a consumer interest group whose mission is to stand up to special interests by studying and advocating for problems that affect the health and livelihood of the state's population. This year, a small group from the organization decided to engage in an alternative spring break by advocating for the state to uphold the ban of single-use plastic bags.

"The turtle resonates with us as an organization," group spokesperson Semi Cole said. "It is one of the creatures that often get trapped in this environmental disaster because of the ocean pollution. Turtles have been found eating plastic and died because of it. That breaks our heart and we want to provide justice for creatures like them."

Cole, a political science sophomore at UC Riverside, has been connecting with different political organizations that want to see a progressive change on the issue. Together with 19 of his fellow

Student with knife no longer CSULB employee

The Long Beach Police Department has concluded their investigation into the Feb. 25 incident.

BY ARIANA SAWYER
News Editor

The student who displayed a knife in a sociology class Feb. 25 is no longer employed by Cal State Long Beach police as a Community Service Officer, according to President Jane Close Conoley.

"We cannot divulge student conduct disciplinary action because of federal law, but I can share that he is no longer an employee of CSULB," Conoley said in an email Saturday.

The Family Educational Rights and Privacy Act protects the privacy of student education records at any institution that receives money from the U.S. Department of Education.

"The LBPD investigation is also complete and they have turned the case over to the city prosecutor who is now handling [the case]," said Michael Uhlenkamp, executive director of media and digital news.

The Long Beach Police Department took over the investigation due to a conflict of interest posed by the student's relationship to the university as both an employee and the son of a University Police sergeant.

The 20-year-old male holding the knife was doing so from behind another female student during a heated debate. When the professor of the race, class and gender class saw the knife, she tapped the student on his shoulder and asked him to exit the classroom with her. Once outside, she told him he could not come back. According to an email from Conoley to NAACP Long Beach chapter President Naomi Rainey March 9, he did not argue and subsequently left.

PHOTOS BY LINDSAY PETERS | DAILY 49ER

Members of the Cal State Long Beach chapter of ASCE carry their concrete canoe "Umi"to begin the Swamp Test. During the Swamp Test canoes are intentionally filled with water to ensure they'll still stay afloat during the race.

A civil (engineering) action

CSULB engineers gathered with students from 18 other schools to compete at the Pacific Southwest Regional Conference.

BY LINDSAY PETERS
Assistant Design Editor

At the Pacific Southwest Conference, students from San Diego State University loudly chant so their concrete canoe team can hear their support while rowing in the endurance race.

Not only does concrete float, it can be raced. Teams of civil engineering students from over 18 schools designed their own concrete vessels to sail through the water and weave through buoys Saturday in Long Beach.

The concrete canoe race is just one event during the American Society of Civil Engineers' student-run Pacific Southwest Conference.

Cal State Long Beach's ASCE chapter hosted the conference this year for over 1,300 attendees on CSULB's campus with the canoe race at the Marine Stadium on Paoli Way in Belmont Shore.

Universities ranged from Southern California institutions such as San Diego State, Cal Poly San Luis Obispo and University of California, Los Angeles, while others hailed from out of state such as Arizona State University and the University of Hawaii at Manoa.

Each school was tasked to design and build a canoe out of a strong yet lightweight mix of concrete. ASCE Vice President Hernan Lozada said it involves months of planning utilizing software to test the hydraulics and function of the canoe.

"[ASCE members] have done so many calculations on that bastard," Lozada said. "We have these things called point loads so at certain areas we don't want to put too much weight because it'll crack and break."

The first race of the day was endurance rounds for men, women, and coed teams. Two members from each school rowed their canoes while maneuvering around strategically placed buoys.

ASCE treasurer Abigail See, who participated in the women's endurance race, said effective communication becomes the key element to getting the fastest time.

"That's what makes or breaks a good team," See said. "You have to coordinate your strokes because if you're going at different times you actually don't move as fast or smoothly."

The ASCE conference started Thursday and culminated in a banquet Saturday. Over the course of three days student teams from each school participated in various competitions.

Some games were engineering related, such as the canoe race or a steel bridge construction contest, others were not technical, such as volleyball or tug of war. What united them, however, was the boisterous show of support students gave their school's team.

"There's a lot of screaming so you'll probably be deaf after [the conference], if you don't lose your voice already," Lozada said. "You'll literally see everybody looking like howler monkeys."

Ashley Betance-Kearn, a graduate civil and environmental engineering major at Cal Poly San Luis Obispo, said the enthusiasm came from students' dedication to civil engineering and a bit of competitive energy.

"We're all really passionate about what we do and it's nice to be able to compete against different schools," Betance-kearn said. "Everybody wants to be the best."

ASCE co-conference chairs Mais Sagradyan and Lauren Kilroy headed organizing with co-presidents Cody Dodge and Tatiana Braun. Kilroy said ASCE's planning involved booking venues, some a year in advance; coordinating catering for the three days and contacting local civil engineering firms for sponsorship.

However, Kilroy said the responses she's received from other attendees makes the two-year chaos worth it for her.

"I've been running around like crazy, yet no one else knows," Kilroy said. "They just see that everything is going well, and I'm like 'that's it, that's how I can relax: they like it, we're doing good.'"

According to Amanda Corbett, a fifth year civil engineering major from San Diego State, the Pacific Southwest Conference is a competition but, beyond that, a valuable networking opportunity for future engineers.

"These people we know in college, we're gonna be friends with them later on and network with them," Corbett said. "We have people that come to our meetings and they always show us pictures of when they went to conference back in the '80s."

Hosting for the conference rotates every year. Kilroy said that despite fierce competition between schools, ASCE is working closely with next year's conference host: University of California, Irvine.

"Usually they're our rivals; UCI, they're down the street, but we just want everyone to have a good time," Kilroy said. "It's what we've been working towards."

BAGS

continued from page 2

students, he's been traveling from city to city to attend press conferences and talk to local people. He hopes that their work will contribute to upholding the bill.

Experts at the World Economic Forum expect oceans to be filled with more plastic than fish by the year 2050, according to their January report.

CALPIRG members say they believe the multi-million dollar corporations in the plastic industry are trying to mislead and misinform the public in order to sway the vote in their favor.

"When it comes to the plastic bag ban, it is interesting how much corruption there is," said Mariela Padilla, CALPIRG member and social ecology freshman at UC Irvine. "A lot of companies have paid the government to put a hold on this ban. But they do not really see the effect that the bags and the plastic have on the environment."

The district director for Senator Ricardo Lara, Nick Jiles, attended the protest to demonstrate the senator's support for the bill. Lara is one of the co-authors of Senate Bill 270. Jiles said he does not believe that the plastic industry is corrupt, but that it is simply fighting to maintain its profits without thinking about eventual environmental consequences.

"What we are seeing is that the industry is fighting back against progress," Jiles said. "Corporate social responsibility is often an oxymoron. When we talk about this industry specifically, they are not interested in any type of corporate responsibility. They are interested in the bottom line, and that is what we can see in their spending."

After a short protest, the CALPIRG members walked down to the Shoreline Aquatic Park where they gathered to clean and pick up trash.

"Now is the time to promote a much more sustainable culture," Cole said. "Now is the time to bring that future forth."

The vote on the plastic bag ban will take place as part of the general election on Nov. 8.

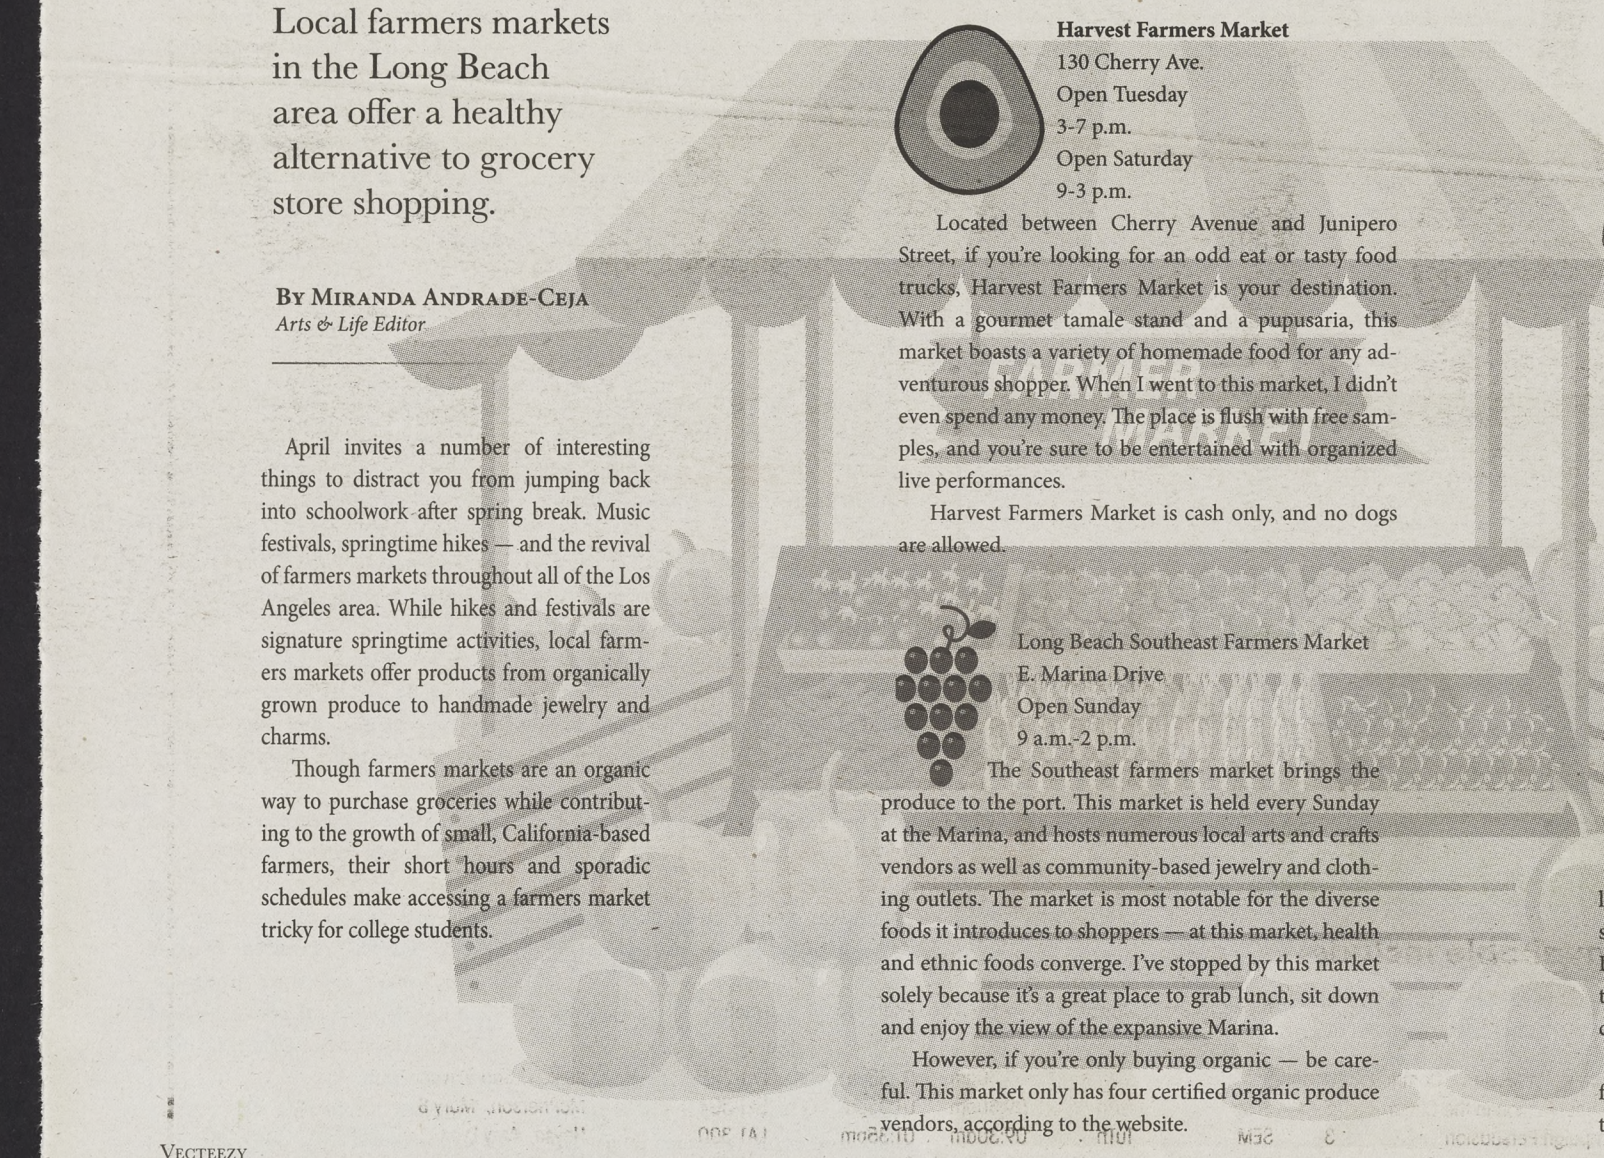
Farmers market season has sprung

Local farmers markets in the Long Beach area offer a healthy alternative to grocery store shopping.

By Miranda Andrade-Ceja
Arts & Life Editor

April invites a number of interesting things to distract you from jumping back into schoolwork after spring break. Music festivals, springtime hikes — and the revival of farmers markets throughout all of the Los Angeles area. While hikes and festivals are signature springtime activities, local farmers markets offer products from organically grown produce to handmade jewelry and charms.

Though farmers markets are an organic way to purchase groceries while contributing to the growth of small, California-based farmers, their short hours and sporadic schedules make accessing a farmers market tricky for college students.



Vecteezy

Harvest Farmers Market
130 Cherry Ave.
Open Tuesday
3-7 p.m.
Open Saturday
9-3 p.m.

Located between Cherry Avenue and Junipero Street, if you're looking for an odd eat or tasty food trucks, Harvest Farmers Market is your destination. With a gourmet tamale stand and a pupusaria, this market boasts a variety of homemade food for any adventurous shopper. When I went to this market, I didn't even spend any money. The place is flush with free samples, and you're sure to be entertained with organized live performances.

Harvest Farmers Market is cash only, and no dogs are allowed.

Long Beach Southeast Farmers Market
E. Marina Drive
Open Sunday
9 a.m.-2 p.m.

The Southeast farmers market brings the produce to the port. This market is held every Sunday at the Marina, and hosts numerous local arts and crafts vendors as well as community-based jewelry and clothing outlets. The market is most notable for the diverse foods it introduces to shoppers — at this market, health and ethnic foods converge. I've stopped by this market solely because it's a great place to grab lunch, sit down and enjoy the view of the expansive Marina.

However, if you're only buying organic — be careful. This market only has four certified organic produce vendors, according to the website.

Spring Street Farm Project
3012 Long Beach Boulevard.
Open Tuesday
9 a.m.-6 p.m.
Open Friday
9 a.m.-6 p.m.

The Spring Street Project gets all of its produce from their farm in Cypress, where they harvest cantaloupes, strawberries and other organically grown fruits and vegetables. The Cypress farm is close by, and if you ask, you can even pick your own produce. Though this market is in the middle of a bustling intersection, the market offers inexpensive prices to all shoppers but does not accept credit cards.

Bixby Knolls Farmers Market
46th and Atlantic Avenue
Open Thursday
3-6:30 p.m.

This farmers market is a bit smaller (parking lot-sized); however, it offers relatively inexpensive foods and produce for local market goers. Despite its small size, this farmers market offers the bare necessities to execute any student's grocery trip.

There's also lots of nearby parking, so feel free to pull up and grab some free samples from the produce vendors.

Summer Study Abroad

Study abroad this summer! Studying abroad is one of the best ways to make the most of your college Education. Be one of the fewer than 2 percent of all U.S. college students who study abroad.

We still have spots available, but if you're interested you need to act fast.

Study in one of the following countries in summer 2016 and receive CSULB course credit:

Barbados	Ireland
Cambodia	Italy
China	Japan
Corsica	Mexico
Costa Rica	South Korea
Czech Republic	Spain
England	Taiwan
Guatemala	Vietnam

APPLY NOW!

For more information go to: ccpe.csulb.edu/SummerAbroad

Please visit website for updates on Winter 2017 and Summer 2017.

The music video to EP "Everything That You've Come To Expect" features TLSP buried up to their necks in sand while a slow ocean tide comes in and a devastated woman pirouettes.

What did you expect from TLSP?

The English duo's second studio album ends an eight-year hiatus with a crash and bang.

BY MIRANDA ANDRADE-CEJA
Arts & Life Editor

The Last Shadow Puppets hit music charts worldwide eight years ago when their debut album, "The Age of the Understatement," was released, delivering epic cinematic tracks accompanied with intricate strings and the collaborative lyricism of artist Miles Kane and Arctic Monkeys frontman Alex Turner.

After 2008, duo Turner and Kane went into a hiatus without delivering a promise for the return of the Last Shadow Puppets. Indie rock band Arctic Monkeys soon stole the spotlight, demanding most of Turner's attention that came to a head after the critically-acclaimed release of Arctic Monkeys' self-titled album "AM." Turner completed a two-year long world tour with the Monkeys before the group went on hiatus — and after so many gigs, I can't say I was expecting to see material from Arctic Monkeys within the year, let alone the dormant Shadow Puppets.

Aptly named "Everything You've Come to Expect," the Puppets' second album was released on April 2 by Domino Recording Company and is the soundtrack to a movie that you'd definitely want to see.

Canadian conductor Owen Pallett is responsible for the layered string arrangements on both their first and second album, though EYCTE doesn't parallel the nouveau-western cellos implemented in their debut. Instead, Turner and Kane incorporate elements of disco dance ("Dracula Teeth," "The Element of Surprise") and classic rock 'n' roll with otherwise classical strings, setting up the scene for yet another cinematic album full of twists, turns and orchestrated chaos.

The album opens with the shrill ascension of violins, only to abruptly stop and carry on with a steady guitar riff and accompanying beat. Kane, who carries a hard-edged voice similar to that of Bob Dylan, is the first voice we hear. He belts out a song that would sound classically Western had it not been for the playful accompanying violin.

Though most of EYCTE's tracks are a collaborated work by both Turner and Kane, Turner worked solely on three tracks from the album — lyrically, his presence is heard. The album reaches its peak on track seven, "Sweet Dreams, TN."

Vocally, the song is peppered with sudden bursts of frustration that exemplify Turner's developing vocal range that deepened significantly in between 2008 and 2016. Now sporting a low, baritone drawl — Turner addresses his hopeless, lonely state with clumsy lyrics and simple rhyme in the first second of the ballad, "I just sorta always feel sick without you baby/I ain't got anything to lick without you baby."

Without the veil of Arctic Monkeys, Turner's songwriting turns personal. He assumes the position of the narrator, adding his wit to cliché expressions heard in the verse "You're the first day of spring/With a septum piercing."

The track is classic rock 'n' roll, complete with a desperate narrator who calls out a first and final "Little Miss Sweet Dreams, Tennessee!", a declaration of love and potential allusion to Turner's Midwest sweetheart, Taylor Bagley.

Following track "Used to Be My Girl" features Turner and Kane rasping out hot and heavy vocals and backed by a chugging guitar — succinct and dark, the album continues down this road by establishing a 1950s horror-flick sound reminiscent of TAOTU ("She Does The Woods," "The Dream Synopsis").

"Bad Habits" was the first EP released by the Last Shadow Puppets, demonstrating an unbridled chaos, Kane's vocals lashing out violently against screeching, fast-paced violins and a chugging guitar. Though overall impressed with the refined, ever-exciting new sound — "Bad Habits" felt oddly unresolved due to the duo's inclination to work in a lot of strange chord shifts and key changes.

EYCTE ends on a bittersweet note, Kane and Turner's overlapped voices muffled by static and partnered with upbeat, happy-go-lucky (and possibly Beach Boys-inspired) instrumentals. "The Bourne Identity" addresses a dual anti-personality experienced by the narrator, who finds himself destroying the good that comes to him and bidding that personality farewell, chiming "Yeah I'll be leaving now I'm making tracks/And I doubt that I'll be coming back."

Overall, "Everything You've Come to Expect" didn't disappoint. The audibly cinematic experience that fans bought a ticket for in 2008 has returned eight years later, and I don't have a doubt that the Last Shadow Puppets are embarking on the world tour of their lives. The Last Shadow Puppets will be performing in Los Angeles on April 20 at The Theatre at Ace Hotel.

Apple/FBI

Remember when the FBI was harassing Apple in attempt to get the corporation to create software that would help break into a locked phone that was considered evidence in an ongoing investigation into the San Bernardino shootings?

Remember when Apple absolutely refused, claiming that creating the software wouldn't just affect the phone in question, but also lower the security of every iUser around?

Remember when, somehow, the FBI was able to get into the phone without any actual help from Apple anyways? I can't say I'm surprised that the FBI figured out a way to get what they wanted. I'm more irked that they played off the entire situation like Apple's help was vital to their success.

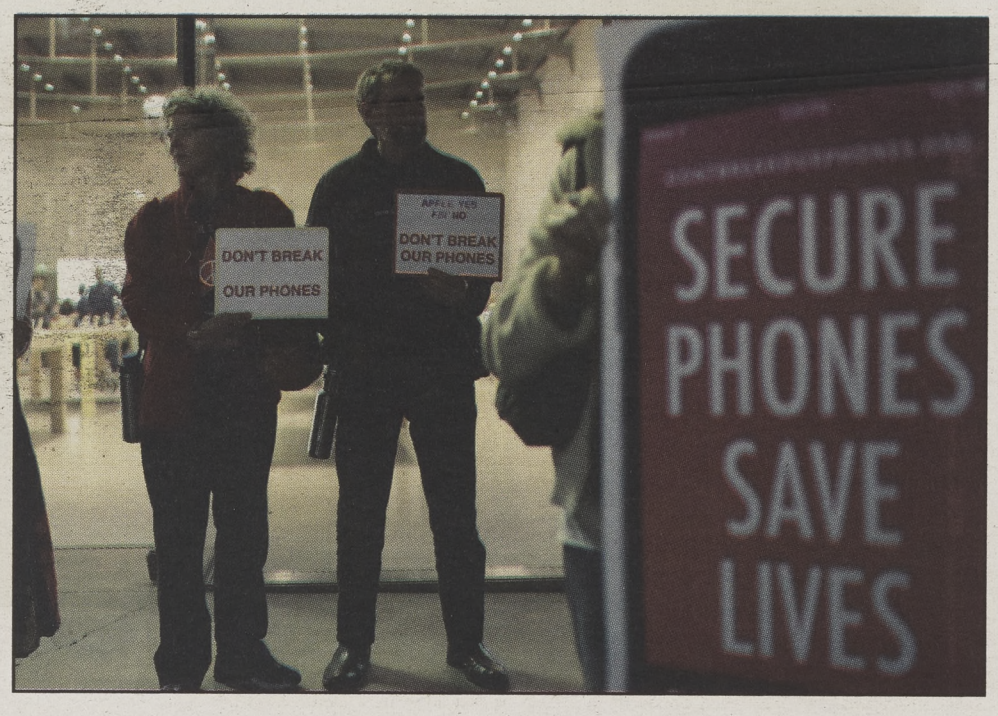
There are a lot of unanswered questions pouring forth in the wake of the break — who is the mysterious third party that stepped in where Apple didn't? Why did the FBI go to Apple if there were other, easier options? What does this mean for other law enforcement agencies trying to get private information, and how did the third party manage to get the job done?

I'm not expecting answers. Not satisfactory, properly presented ones, at least. The FBI has shown they're in a place to kind of just do what they will and only involve whoever ends up being beneficial to a particular step.

I'm not too happy about it, not too comfortable with the idea that there is a way for passcodes and privacy features to be overridden in such a blatant manner. Even if it's not made public, I'm sure Apple will figure out how the bypass occurred and patch whatever holes they didn't know were there. I'm sure they'll strengthen the way their systems and machines operate and reassure the public that such a thing will not happen to them. But, the larger issue here is the precedent the FBI has just set and the reality of the action they just took.

The idea of "privacy" just becomes more and more diluted each passing year, and all I can sit here and do is wonder just how much further things will go.

It's not like electronic communication and photos stored on clouds haven't been in total jeopardy for years as it is.



Katie Falkenberg | Los Angeles Times | TNS
Protesters, from left, Sandra Bell, Victoria Best, and Charles Fredricks, hold signs in support of Apple store inSanta Monica, Calif., on Tuesday, Feb. 23, 2016. Rallies were planned at Apple stores across the country to support the company's refusal to help the FBI access the cell phone of a gunman who took part in the killings of 14 people at the Inland Regional Center in San Bernardino.

CFA/CSU Update

Yes, we all know there's a strike coming up and we're basically cashing in on spring break 2.0. Yes, we all know the discrepancy between requests and offers on faculty pay raises and the deadlock in negotiations.

We know that the California Faculty Association and the California State University system have been butting heads for way too long. But now, finally, we know that CFA is the side that has actually been able to support its argument.

Over break, an independent mediator released a fact-finding report that tells the CSU to drop their argument and pay faculty what they actually deserve. There's money in the system and lecturers living out of their cars – how can anyone be surprised by the call for action?

With everything the CFA has put forth showing how much faculty across the state are struggling financially and the efforts those same faculty have gone to in order to have their voices heard, it's finally time for their stance to be validated in such a massive way.

The CSU system has been fighting back valiantly every step of the way, but this report is way too hard to counter. The vice chancellor has already released a statement to the effect of not having the budgeting ability to account for the extra millions of dollars needed to give the 5 percent raise, but at this point in the game, he and his office are playing a losing hand.

Claiming that money in the budget is more fit for development projects and facility maintenance than giving faculty any sort of purchasing power in the economy and the bare necessities of a lower-middle-class individual just doesn't fly anymore. Faculty aren't asking for paychecks to support hillside mansions and intercontinental vacations. They're asking to have their pay match the cost of living and inflation rates so they can eat without fear of hunger the next day.

Give them the raise, already. CFA isn't kidding when it comes to taking action, but the CSU won't take any at all.

If the CSU system holds its ground and really does stick to its 2 percent offer, I'm concerned for what the next few weeks will bring in terms of CFA responses. Five days of striking over the next two weeks will be detrimental enough – if the request still isn't met in the days following and further action is organized, who knows what we'll have to look forward to in terms of spring break 3.0.

Anti-Semitic fliers

The Friday before spring break, wireless printers on our campus and others across the country started spewing out fliers addressed to white men, reading "ARE YOU SICK AND TIRED OF THE JEWS DESTROYING YOUR COUNTRY THROUGH MASS IMMIGRATION AND DEGENERACY."

Definitely doesn't sound like the average class project being printed in a last-minute frenzy, huh? It rings a bit truer to some sort of hate crime or really poorly veiled threat at the Jewish community here. There was no signature on the fliers, just directions to visit a white supremacy advocacy site.

Awesome. That's exactly what I as a student want 20,000 copies of.

Over the course of last week, hacker Andrew "Weev" Auernheimer owned up to the stunt in a very public way. A lengthy, self-praising blog post from Weev barely touches upon the content of the fliers, other than to praise the inherent beauty of the swastika as a symbol, but rather focuses far more on the attention he got on a national scale from the stunt. His fliers reached from California to DePaul University, University of Massachusetts Amherst, Princeton, Smith and more. The media coverage garnered from the fliers had him acting like a proud father, showing off just how cool this thing he had a part in making was.

The screencaps of tweets, emails, news stories and campus bulletins sprinkled throughout the post only exist to stroke his ego and remind him just how many people he got talking .

In the world we live in, there are dozens upon dozens of ways to get attention from the internet. There are websites dedicated to posting selfies and personal ads, myriads of channels to self-publish created works and far too many threads users can jump into and spark discussion (or argument) in a matter of moments.

I cannot for the absolute life of me figure out why Weev decided that remotely printing anti-Semitic propaganda that may or may not even be serious was the way to go. I cannot understand why bringing legitimate fear to students and faculty completely unrelated to Weev was the direction he took.

His need for attention and validation is pitiful at best, but the fact that he is attempting to get it via promoting a movement that has taken security and livelihood away from individuals based on nothing more than religious affiliation is revolting.

What you missed

While students at Long Beach State got a break this past week, several student-athletes went right back to work.

BY JOSH BARAJAS
Sports Editor

Movin' on up

Before going on break, then-No. 21 LBSU women's water polo team thumped Chapman University 16-3 at home on March 24. Sophomore utility Virginia Smith scored a team-high three goals and four other 49ers finished with two goals each.

Then on March 26, the 49ers made a statement in the Big West with an 8-4 upset away at No. 5 UC Davis in the conference opener behind senior goalie Alexis Butler's nine saves. However, California brought the 49ers back to Earth by picking up an 11-5 win in Berkeley on March 27. Butler made seven saves against Cal and even though they weren't enough to get the win, they were enough to earn Butler Big West Player of the Week honors.

After a successful weekend, the 49ers moved up the national rankings, landing at No. 16. On Thursday, LBSU split a homestand, losing 8-7 in a non-conference matchup against No. 20 San Diego State before beating Brown University 7-4.

The LBSU baseball team also moved up the rankings over the break, going from No. 20 to No. 17 to wrap up non-conference play.

In their annual non-conference series against Cal State Fullerton the Dirtbags took two of three games at Goodwin Field March 24-26. In game one the Dirtbags beat the Titans 5-4 after 12 innings. In game two the Titans tied the series, defeating LBSU 4-2 after scoring all four runs in the final four innings. The Dirtbags took the rubber match the next day, moving past CSUF 5-4.

In their second meeting of the season with Fresno State, the Dirtbags lost 10-5 on Tuesday in Fresno. After the loss, LBSU learned redshirt sophomore Tristan Mercadel will have season-ending surgery after suffering a knee injury during the series against Fullerton.

Movin' on down

The LBSU men's volleyball team started the break on a historic but sour note. On March 26, a record-breaking crowd of 2,682 for volleyball watched then-No. 4 LBSU lose 3-0 against then-No. 2 UCLA inside the Walter Pyramid. Freshman outside hitter T.J. DeFalco was the only player with double-digit kills, picking up 10 in the loss.

BEN HAMMERTON | DAILY 49ER

The No. 5 LBSU men's volleyball team is 4-4 over the past eight games after starting the season 17-2 and ranking No.1 in the country for several weeks.

The 49ers bounced back with a 3-2 win against Pepperdine on Thursday in Malibu. DeFalco and fellow freshman outside hitter Kyle Ensing combined for 53 kills in the win. Ensing picked up a career-high 27 kills while DeFalco finished with 26.

However, LBSU failed to pick up any momentum from the win and lost 3-1 against No. 4 Stanford on Saturday in Stanford. DeFalco once again led the 49ers with 20 kills.

Spring sweeping

The LBSU softball team swept through a doubleheader against Loyola Marymount in Los Angeles and opened Big West play by taking the series 2-1 against CSUN in Northridge over spring break. The 49ers outscored the Lions 16-5 on Wednesday as a tuneup for their conference opener against the Matadors.

The 49ers dropped the first game of the series 2-1 in an eight-inning thriller on Saturday, but bounced back with a 3-2 win later in the day to even things up.

On Sunday, LBSU took home the rubber match 2-0 behind a complete game shutout by junior right-hander Christina Clermont. Clermont allowed just two hits and struck out seven Matador batters.

The No. 7 LBSU beach volleyball team also ran through the break, going a perfect 6-0 since March 24 when they beat Nebraska 4-1 at the LBSU Sand Courts. On March 25, the 49ers swept a doubleheader, winning 4-1 against both LMU and California at home.

On Thursday, LBSU swept another doubleheader, that time beating both Concordia University and CSUN 4-1 in Northridge.

The 49ers returned to the LBSU Sand Courts on Friday and defeated No. 6 Arizona 4-1. The LBSU beach volleyball team has now won eight of their last 10 games after starting the season 0-5.

WOMEN'S WATER POLO

Sneaking up on the Big West

The 49ers are two for two against conference opponents after stifling the Matadors offense.

By Will Hernandez
Assistant Sports Editor

Bobby Yagake | Daily 49er
49er sophomore attacker Luiza Moraes looks for a teammate to pass to in LBSU's 10-4 win over Cal State Northridge on Sunday at the Ken Lindgren Aquatics Center.

Behind freshman attacker Tori Morrissey's career-high five goals, the Long Beach State women's water polo team topped Cal State Northridge 10-4 on Sunday afternoon at the Ken Lindgren Aquatics Center.

Morrissey, the first-year player out of Maroubra, Australia, gave the 49ers (14-9, 2-0) an early 3-0 edge with a pair of first period goals. LBSU pulled away after that, outscoring CSUN 7-2 in the following three periods.

"In sports, if you can get some good luck and get things to go your way, you can build off of that momentum, and I think that's what happened for us today," LBSU head coach Gavin Arroyo said. "Northridge is a real good team and I'm not looking forward to facing them in conference."

The 49ers are now 2-0 in the conference and CSUN's (10-16, 0-2) head coach Marty Matthies thinks LBSU is a team everyone in the Big West needs to look out for.

"In general, this is a really good conference," Matthies said. "Long Beach is coming off a big conference win [at UC Davis] and they showed why they're a force to be reckoned with and we will see in [the] conference tournament how things pan out."

Although the Matadors only scored four goals in the game, Matthies said the team's inability to limit the 49ers offense was their main Achilles' heel on Sunday.

"Our defense was our biggest struggle, and on top of that, we just gave them too many opportunities," Matthies said.

One of those opportunities came with around three minutes remaining in the game. It started when CSUN's sophomore utility Paula Abellan Garcia was ejected for complaining to one of the game officials, resulting in a six-on-five power play for LBSU. The 49ers moved the ball around and found Morrissey who drilled in her fourth score of the game, extending the LBSU lead to 8-2.

On the ensuing CSUN possession, the Matadors snapped LBSU's 4-0 run when junior utility McKenzie Pollei cleaned up a missed shot with no one in front of the net with 2:30 left on the clock in the third period. But sophomore utility Virginia Smith answered right back and delivered a backbreaker when she fired in her second score of the game from the perimeter.

Smith said that she sensed a good feeling about Sunday's game during the 49ers' warmups because "everyone was on the same page."

"After we scored our first goal, the energy just kept increasing and increasing and we started feeding off of each other," Smith said.

Smith is the 49ers' leading scorer with 39 goals, while Morrissey has the second most with 32. LBSU's senior goalkeeper Alexis Butler, the reigning Big West Player of the Week, made 10 saves against CSUN and has the fourth most stops in the league with 119.

"When Alexis is on we are a real dangerous team and she was really good today," Arroyo said.

"This is kind of new territory for us, being someone that can beat good teams. I think that pressure got a little too high for them against SDSU so it was nice for them to bounce back from that instead of dwelling on it."

The 49ers host Pomona Pitzer next on Saturday at noon at the Ken Lindgren Aquatics Center.

BASEBALL

John Fajardo | LBSU Athletics
LBSU senior right-hander Tanner Brown winds up in the Dirtbags' 2-0 win over UC Santa Barbara on Sunday at Blair Field.

DIRTBAGS

continued from page 1

"There's small margins for error," Buckley said.

On Saturday, the Dirtbags got a lift as Hampson hit his first homer at Blair Field, giving LBSU a 1-0 lead in the first inning.

"I haven't hit enough of those to know right off the bat," Hampson said. "But I did know I hit it pretty well."

Sophomore pitcher Darren McCaughan continued his hot start to the year, pitching three scoreless innings until the Gauchos tied the game in the fourth after J.J. Muno hit an RBI single with the bases loaded.

UCSB took the lead after freshman catcher Thomas Rowan hit a leadoff single. Rowan would score after advancing on a wild pitch and a sacrifice fly to give the Gauchos a 2-1 lead.

Buckley said that his team played a little tight while UCSB played with a bit more of a relaxed mindset.

"They played free," Buckley said. "They came in here to make a statement. We tried to counterbalance that by being in neutral. Sometimes we'll try and step on the gas and [we make] poor decisions. Sometimes we'll back off the gas and that's when they should step on the gas."

The Dirtbags got things going again on Sunday as they beat UCSB 2-0 avoiding the sweep.

"[This] was very much needed; not to get swept," Buckley said. "You can't get swept in conference. It's really difficult, I believe that every conference loss is almost like two losses, because you have limited opportunities to play everybody."

Senior Tanner Brown was cooking on the mound as he pitched eight innings, allowing only two hits and striking out five.

"The defense played great," Brown said. "They made a couple of great plays. I just stayed down, and threw a lot of strikes and this was a big win."

Facing a sweep and coming off his three-inning outing against Cal State Fullerton last week, the right-hander showed great command of his pitches.

"Walking into this one I knew we had to win," Brown said. "I knew I had to do well for my team and just pound the zone."

LBSU will be back in action Tuesday at 6 p.m. as the Dirtbags travel to San Diego State for a non-conference game.
